

TRV

RECTANGULAR VIBRATING ASPIRATOR

Ideal for exhaust of light impurities.

Small surface requirements, easy adjustment and control.

Specifically designed to take up limited space. Steel housing incorporating vibratory feeder and vertical exhaust channel with variable cross-section featuring full view inspection panels.

Vibrating body, positioned on rubber isolators and driven by a motorvibrator for homogeneous product distribution.

The machine can be used as a single unit or with either the screenroom separator or intensive scourer.
