

Maintenance and Automation

The OcrimWebinar series continues with its second episode

Broadcast live and online at 10am (UTC+2) on May 27, 2021, the most recent OcrimWebinar discusses news and benefits about the innovative BioStoneMill and related stone grinding.

This cutting edge machine is able to mix the past with the present, combining the "know-how" of the tradition with the most modern technologies in the milling field.

The speakers include Simone Montanari, Paglierani Srl mechanical engineer, and Simona Digiuni, Ocrim biotechnologist.

Although this event is mainly aimed at milling plants owners, investors, technicians and millers, participation is highly recommended to all operators who wish to keep up to date about the latest technological and mechanical innovations in the milling sector.

From now on all OcrimWebinars will be available in different languages, with an interpreter translating the event simultaneously in English, French and Spanish.

EuroTier China 2021 & AgriFuture Conference China

Two events to take place in Nanjing at same time

Taking place from October 18-20, 2021, EuroTier China will open its doors for the expert world of animal farming.

After the successful show in 2020, this years' EuroTier China takes place in Nanjing at the China Jiangsu Baima Agriculture International Expo Center.

Besides the two days of trade fair, visitors and exhibitors can also expect a condensed conference program and field trips to adjacent agricultural sides.

Together with the AgriFuture Conference China, EuroTier China follows its promise and brings national and international experts from the animal farming industry on stage to exchange ideas on trend-setting topics in the industry.

EuroTier China offers the platform for experts from the animal farming industry. Located in Nanjing, Jiangsu province, it takes place in the provincial centre of animal farming with access to the leading feed equipment producers of the country and outside.

EuroTier China will also tour between April and September 2021 to several farming regions in China. Each stop will be held in an in-depth workshop format and focus on a particular topic of animal farming.

International companies will be part of the tour by presenting their solutions to a selected audience.

The EuroTier China Road Show offers them the exclusive opportunity to meet prior EuroTier China new customers and expand their business.
